

"Legacy Language"

Part 4

The Power of a Seed

This past weekend Pastor Ken continued to celebrate the history of our church with our series, Legacy Language. Did you know that our church family has been here for 54 years? That's 2,808 weekends of sermons preached! In all of the words that have been said in all of those sermons, there have been a few key phrases that have shaped who we are as a church family- our legacy language. Over these weeks, we invite you to journey with someone at work, your family, or find a place to do it alone or with a friend. Let's explore together some of these phrases during this series.

Anyone can count the seeds in an apple, but only God can count the apples in a seed.

1. This is one of Pastor Foreman's most famous phrases that we have heard over and over again. Never underestimate the power of a seed for only God knows the potential of that seed.
2. Jesus taught about the impact of a seed (read Matthew 13:31-32). Having a bigger harvest in your life begins with an increase in your vision. Don't just see the way things are in your marriage, or at work, or in your school or ministry. Let Jesus help you to see the way things can be. Take a moment right now to ask Jesus to increase your faith.
3. Next, you need an increase in your faith (read Matthew 17:20). Take a step of faith and plant that seed into the ground. What is the mountain in your life that you need to climb? Take a step.
4. Finally, you need an increase in patience. Have you been waiting for a breakthrough in your life? Be encouraged that even if you can't see it, God is still at work behind the scenes and one day that seed will burst forth out of the ground and the dream that God put in your heart will come to pass (read Hebrews 6:12). Share with each other what you need God to do in your life today.
5. Only God knows the many lives that have been touched through the cathedral of Faith and the many lives that will continue to be touched as we move forward with vision, faith, and patience.
