

THE BUTTERFLY EFFECT

HOW SMALL STEPS OF FAITH
CAN CHANGE EVERYTHING

Part
1

Physical Transformation

This week Pastor Ken started a new series called *Butterfly Effect*. We will look together at how small changes on the inside can make big changes on the outside. So gather with your family or go through these points alone each week and let's grow together.

And do not be conformed to this world, but be transformed by the renewing of your mind, so that you may prove what the will of God is, that which is good and acceptable and perfect.
Romans 12:2

1. Is there a mountain in your life that needs to be moved or an area of your life that you would like to see transformed? It all starts with one small step (read Luke 17:6).
2. Small steps of faith can transform your life physically (read 3 John 1:2).
3. We should express gratitude for the body that we have (read Psalm 139:13-14) and take care of it (read 1 Corinthians 10:23).
4. God wants us to honor Him with our bodies (read Romans 6:12-14). Since our body doesn't belong to us, discuss some ways that you can honor God with your body.
5. What are some small changes or steps that you can make this week to move forward?
