

THE BUTTERFLY EFFECT

HOW SMALL STEPS OF FAITH
CAN CHANGE EVERYTHING

Part
4

Small Steps and Building Bridges

This week Pastor Ken finished his series called *Butterfly Effect*. We looked together at how small changes on the inside can make big changes on the outside. We hope that you were able to gather with your family or went through these points alone and had a positive experience.

And do not be conformed to this world, but be transformed by the renewing of your mind, so that you may prove what the will of God is, that which is good and acceptable and perfect.
Romans 12:2

1. One small step can move mountains (read Matthew 17:20) and make our broken world a better place just like Rosa Parks did years ago in Montgomery, Alabama.
2. In Christ we find a savior who is the answer to our deepest needs including racial division and hostility (read Ephesians 2:14-15 and 1 John 2:2-4).
3. The only one who has the power of change the human heart is Jesus (read Ezekiel 36:26). He can change us so we can see people the way He sees them, to treat them the way He does, and to love people the way He loves them. What needs to change in your heart?
4. The miracle of the gospel is when we take a small step of faith to bridge the divide and we love, listen, stand with, eat and pray with each other refusing to let our differences divide us. What steps can you take this week to bridge the divide?
